☎ : +91 7294934350

In : <https://www.linkedin.com/in/ujjawal-kumar-b49277223>

Address : Mumbai, Goregaon(W)

Professional Summary:

Dynamic Full Stack Developer with over 3 years of experience specializing in Flutter, React, Node.js, and Java. Proven track record of building scalable, production-ready systems utilizing AWS S3, Google Cloud Spanner, and real-time analytics. Expert in optimizing API performance and architecting cross-platform applications for Android, iOS, and Web.

Skills :

- **Languages** : Java(Data Structure, Multithreading, Oops, Interface, etc), Dart, J2EE, JDBC, Spring, JavaScript, SQL ,Node js, Typescripts
- **Frontend** : React.js, Flutter, Bootstrap, HTML, CSS
- **Backend** : Node.js, Express.js, Java, **Microservices Architecture**.
- **Databases** : MongoDB, MySQL, Amazon S3, Google Cloud Spanner
- **Tools & DevOps** : Git, Jira, Postman, Android Studio, VS code
- **Other**: REST APIs, CI/CD Pipelines, **Certified in Java Full Stack Development** in 2023, Strong cross-team communication demonstrated through collaboration with developers, testers, admins, and product teams.

Work Experience :

Scanning Pens

2023 April - Present

Project 1: Supper Pen

Role: Full Stack Developer

Technologies: Flutter, Dart, Node.js, Express.js, JavaScript, MongoDB, S3, Spanner(AWS)

Descriptions :

Engineered a complete **full-stack admin management system** for smart scanning pen devices, handling both **frontend (Flutter/Dart)** and **backend (Node.js/Express.js, MongoDB, Spanner,SQL)** development. Delivered cross-platform support for Android, iOS, and web..

Key Contribution:

- **Frontend & Backend:**
- Engineered a comprehensive admin system for smart scanning devices across Android, iOS, and Web using **Flutter and Node.js**.
- Optimized **RESTful APIs** to handle 10,000+ weekly requests, achieving a **35% improvement in response times**.
- Integrated **Power BI analytics** and QR scanning tools, boosting onboarding performance by over 50%.
- Architected high-availability storage solutions using **AWS S3 and Google Cloud Spanner**, maintaining **99.9% uptime**.
- Reduced support tickets by 22% by streamlining MongoDB schemas and backend logic.

Project 2: Inspire App

2023 Dec – Present

Descriptions :

Engineered a secure, responsive student-facing web application using **React.js and JavaScript**, integrated with **Node.js/Express.js APIs and AWS(Spanner) SQL, Microservices**. Delivered optimized data flow, reliable authentication, and an intuitive UI for seamless access to device and account information.

Key Contribution:

- **Architected a scalable Microservices backend** using **Node.js** and **Express.js**, decoupling user authentication from device metadata services to improve system fault tolerance.
- Developed a secure, responsive student web application using **React.js** and **JavaScript**.
- Designed a dual-login system (Admin + QR), **reducing login time by 40%** for 300+ student users.
- Built reusable UI components with **React Hooks**, significantly enhancing code maintainability and performance.
- Delivered **sub-200ms response times** by optimizing inter-service communication for APIs handling 5,000+ monthly requests

JBM Auto Limited

2021 Feb - 2021 Nov

Project : Third Eye – Attendance Scanner App

Role : Java Developer (Backend)

Description :

Developed the backend for an Attendance Scanner App using Java, Spring Boot, J2EE, Servlets, JDBC, and MySQL. The system receives face-scan data from the client, validates employee identity, and securely records attendance with optimized database performance and reliable API workflows.

Key Contribution:

- Developed a backend system for face-scan identity validation using **Java, Spring Boot, and J2EE**.
- Implemented secure **MySQL** operations utilizing **JDBC** and connection pooling.
- Built REST APIs for attendance recording and CRUD operations with robust error handling and logging.
- Added validation, error handling, and logging for reliable backend performance.

Education:

- Dream Institute of Technology B.Tech in Computer Science in 2020.
